Approval of October 2021 minutes

There were no corrections or additions to the October 2021 minutes. The minutes were approved as posted. Thank you to Kate and Beth.

President: Jennifer Sundman

-Welcome, Everyone! It's been a long time since we have gathered together in this space.

-Sadly, we lost our dear member, Gerry Downs, last Friday. She was 96. A reception is being planned by the family for a later date. Beth will keep us apprised as Gerry was special to so many of us. I also wanted you know that Jane Klunder, a longtime member of our club, and Kay's mother-in-law, passed away last month at the amazing age of 104! Brigitte will be collecting favorite memories of both women to share at the December meeting and also with their families. If you have a memory you would like to share, please send it to Brigitte.

-This is my final reminder to you that the deadline for new member proposal letters is November 30 - a little more than 2 weeks from today. Please check the Policies and Procedures section of your Yearbook for specifics on what needs to be included, and deliver your signed letter to Beth Downs.

-I have received a couple of requests from members asking the Board to revisit the format of our January meeting. After discussion on the subject at our Tuesday meeting, the board agreed we should give the full membership an opportunity to vote on whether we should continue with what we currently have – an optional social meeting in January with no program, or reinstate a traditional meeting and program. If the majority would like to reinstate a traditional meeting, it would begin in January of 2023. THIS January will continue as a purely social meeting - with perhaps a few twists I've been considering.

As you consider your vote, here are a few points that have been brought up:

When the decision was made to change the format, some members felt it would be a good idea for the club to take a month off after the busy holiday season and not have a meeting in January at all, suggesting it was also a more lightly attended meeting month anyway. I believe some members also felt tired after our very successful, but labor intensive, Zone Meeting and big Flower Show. Research was conducted at that time and it was found that a number of other GCA clubs have fewer meetings than we do, or with different formats including occasional evening meetings.

Others in the club miss the traditional format. Some feel January is a time they are eager to get back to “normal” and that they look forward to attending a regular general meeting in a month with few other obligations. They miss the additional opportunity for a stimulating program and speaker. Some also feel new members should be wowed by our strong educational component sooner than the February meeting.

In 2019, it was decided to try an optional “social” meeting - an opportunity for members who desired to gather together, but for others to just take a break. That particular meeting ended up as a time for members to share their thoughts on a variety of club related policies via smaller group discussions.

-Ballots were distributed/collected. Beth will send out an email so that those not in attendance Friday will also have an opportunity to vote. If the majority would like to go back to having a traditional January meeting, Lisa and the program committee will add that to their slate when they begin meeting the beginning of next year. If not, we will continue with what we are currently doing. I will let you know the results when we have them compiled.

STANDING COMMITTEES

Awards & Scholarships: Brigitte Foss is excused.

-Brigitte is collecting memories of Gerry Downs and Jane Klunder to share in December.

Civic: Joan Schulz

-The grant application has been sent out to the Civic committee to pass on to potential recipients. If any other member would like one sent to them or an organization, please let Joan know. Applications are due back by January 15, 2022.

Conservation: Cathy Plush is excused.

-A group of Conservation Committee members enjoyed learning about a Colorado School of Mines project to Recover and Reuse some of the water our city gathers in the high mountains and pipes miles and miles down to the Front Range. With predictions of increasing drought, the possibility of using water that we put so much effort into importing, more than one time, seems like a good idea. Put through many types of cleaning processes that remove everything including pharmaceuticals, the water was crystal clear and tasted no different than what comes out of our faucets now.

-Saving Salmon Conservation Study Conference - November 17, online. Sign up via GCA.

Flower: Meredith Donner

- Enjoyed a fun committee meeting watching GCA’s Flower Flash video, and also a great workshop creating dried flower wreaths with Ellen’s Flowers. It was harder than it looked! Meredith showed hers to the membership.
